

CHM 132 : Organic and Biochemistry

This course provides a survey of major functional classes of compounds in organic and biochemistry. Topics include structure, properties, and reactions of the major organic and biological molecules and basic principles of metabolism. Upon completion, students should be able to demonstrate an understanding of fundamental chemical concepts needed to pursue studies in related professional fields.

Credits 4

Class Hours 3

Lab Hours 3

Clinical Experience Hours 0

State Prerequisites

(CHM 131 and CHM 131A) or CHM 151

Notes

This course has been approved for transfer under the CAA as a general education course in Natural Science.
